10 September 2026

Dear Year 13 Parents and Carers

As we begin what will be an important and exciting year for our Year 13 students, I would like to invite you to our Year 13 Parents Forum on Thursday 17 September 2026, from 6:00pm to 7:00pm in the Main Hall.

The evening will provide an opportunity to look ahead at the year and, importantly, to consider how we can work together to support students through the months ahead.

During the forum, we will look at the year ahead, including what students can expect during Year 13 and the key milestones along the way; key dates and deadlines, including important assessment points, applications, examinations and other events that will shape the year; next steps, including how we will support students with university applications, apprenticeships, employment and other post-18 pathways, and how you can help them make informed decisions; academic support, with practical advice on how you can support students with revision, independent study, organisation and preparation for their final examinations; and wellbeing, recognising the pressures that can come with Year 13 and how we can help students maintain a healthy balance and seek support when they need it.

Year 13 is a significant year. There will inevitably be moments when students feel the pressure of academic demands, decisions about their future and the expectation that comes with being in their final year of school. Our aim is to ensure that students feel well supported, know what is expected of them and have the confidence to make the most of the opportunities available to them.

We hope that the forum will give you a clear understanding of what lies ahead and some practical ideas for how you can support your child at home, while also outlining the support available to students here at Hayes.

I very much hope that you will be able to join us.

Kind regards

Mr Allred
