Dear Parents and Carers,

Re: Key Stage 3 - Science Revision Guides

In order to improve the learning experience in science and help students prepare for examinations, we have revision guides available for purchase in the department. They cover the whole of the key stage 3 course in Biology, Chemistry and Physics. They are presented in a colourful and clear manner by CGP, as well as including question students can use to test themselves.

KS3 Science Revision Guide: ISBN: 9781841462301

Purchase of the books is not compulsory, but highly recommended. The cost of this book is £3.50, which is significantly cheaper than they can be bought outside of school.

The revision guide should be paid for using ParentPay, once you have done this please send your child to school with a copy of the receipt so we can issue the revision guide as the science department are not informed when you purchase revision guides.

There are 2 revision guides – higher and foundation level. The most appropriate will be issued at this stage. It can be swapped at a later date, provided the book is not damaged in any way.

With thanks for your support.

Yours sincerely

L Shipley
Head of Science
