Dear Parents/Carers

Re: Sparx Science

I'm excited to let you know that Hayes school has partnered with Sparx to use their science homework platform. Sparx Science is a platform we have been using for two years which provides questions to students that align with the content studied in class. It adapts in response to students' answers to ensure students receive the right level of challenge and support from the tasks they complete independently. Sparx also has an independent learning function so it can be used as a revision tool.

From Thursday 17th September 2026 your child will be using Sparx Science to complete weekly homework.

Your child's homework will be set on Thursdays and is due on the following Thursday every week. They will be set 30 minutes of homework a week.

How do they log in?

- Students log in at sparxscience.com they will need to find their school and log in using their Sparx Maths details.

What devices are supported?

- Your child can access Sparx Science on any device that connects to the internet with a web browser.

How can I support my child with their homework?

- Sparx Science adapts to each student's ability level, so it's important that you **don't** help too much, e.g. by answering questions for them. This can lead to Sparx giving homework that is too long or hard in future.
- We recommend letting students answer each question themselves and you can give help if they are stuck with the support and follow-up questions.
- You can also help to provide a quiet space for your child to focus on their homework each week.

How can I monitor my child's homework?

- You can keep track of the homework your child is doing by clicking through the link to the Parent Portal in your Sparx Maths weekly homework email.
- On the Parent Portal, you can choose to view homework progress for any Sparx learning system your child is using.

Thank you for your continued support.

If you have any questions, please do not hesitate to contact me.

Yours faithfully

Mrs L Shipley
Head of Science
