Dear Parents/Carers

Re: Mathematics Support Sessions

I am writing to inform you about the upcoming Mathematics support sessions for Year 11 students, which are designed to enhance their preparation for the GCSE examinations. These sessions will commence next week and will be held on a Tuesday at 3:00 pm in your child's respective teacher's classroom. Please note that the sessions will run every second week, and the schedule will be shared directly with students by their Mathematics teacher.

We strongly encourage all students to sign up for these sessions, as they have proven to be a significant factor in the outstanding performance of last year's cohort in their GCSE Mathematics examinations. By attending, students will benefit from targeted guidance, additional practice, and personalised support to build confidence and mastery in key topics.

As parents and carers, your role in motivating your child to participate is invaluable. We kindly ask that you discuss the importance of these sessions with them and encourage their attendance, as consistent engagement can make a meaningful difference in their academic outcomes. To sign up, students can speak directly to their Mathematics teacher or visit the school's online portal (SOCs). If you have any questions or require further information, please do not hesitate to contact the Mathematics department.

Thank you for your continued support in your child's education. We look forward to working together to ensure their success.

Yours sincerely

Mr M Brown

Head of Mathematics
