Dear Parents/Carers

## Re: Year 7 Modern Foreign Languages

I am writing to give you further information about language learning at Hayes School in Year 7 now that your child has settled into their first term.

Our vision is for Hayes School students to "become confident and enthusiastic communicators in a foreign language". Many parents often ask how they can best support their child on their language-learning journey, so we have made the following short video that explains the resources available and ways in which you can help at home:

Thank you for your continued support; by working together, we hope to encourage all students at Hayes to make the most of their language learning opportunities.

Yours faithfully
